Introduction to the First Edition	xxxiii
Acknowledgments to the First Edition	xxvii
Chapter 1. Designing Library Spaces That Encourage Learning	1
Balancing Social and Communal Space	2
Collaborative Learning	4
Study Room Enhancements	5
Planned Collisions	6
Domestication of Library Space	7
The Learning Commons	8
Components of a Learning Commons	9
High-Quality Library Space	13
Summary	14
Chapter 2. Getting Started: The Team	17
Committee Chairperson	19
A Conversation with Leah Wortham	20
Library Director and the Library Consultant	22
Architect	23
University Representatives	25
Ex-officio Members	25
Interior Designer and Technical Consultants	26
Professional Organizations	27
General Contractor	28
Subcontractors	29
Summary	29

Chapter 3. Library “Without Walls,” as “Place” and as “Placeholder”	31
Library without Walls	31
A Conversation with Professor Patricia Cervenka	32
The “Library as Place”	38
A Conversation with Steve Young	39
The Library as Placeholder	41
Designing Repurposed Space	42
Plan Early	43
Maximizing Benefits when Losing Library Space	44
Being Heard Among the Din!	45
Summary	45
Chapter 4. Needs Assessment and Program Statement	47
Needs Assessment	48
Staff Involvement	50
Law Library Statistics	51
Technology’s Inroads	53
Drafting a Needs Assessment	54
Useful Documents	55
Interviewing Users	57
Other Space Requirements	58
Drafting the Report	58
Program Statement	59
Meetings with the Architect	60
Program Statement Format	61
Summary	64
Chapter 5. Design Development	65
Bubble Diagram	65
Schematics	66
Size: Gross vs. Net Square Feet	66
Estimating the Library’s Construction Costs	69
Methods of Reducing the Cost	70
Special Design Considerations	70
Early Meetings with the Architect	71
Round Libraries	72
Underground Space	72
Grand Space	72
Building’s External Facade	74
Interior Spaces	76
Color Palette, Flooring and Finishes	77
Carpeting	79

Carpet Construction	80
Other Common Floor Surfaces	81
Summary	82
Chapter 6. Construction Documents: Working Drawings, Schedules and	
Specifications	83
Filing System	84
Project Schedule	86
Floor Plans	86
Exterior Elevations	87
Building Model	87
Heating, Ventilation, and Air Conditioning (HVAC) Plan	87
Lighting Plan	88
Electrical Power Plan	88
Local Area Network (LAN) Plan	90
Telecommunications Plan	90
Audiovisual Plan	90
Landscape Plan	91
Room Interior Configurations	91
Computer-Aided Design Drawings	95
Interior Design Schedules	95
Library Furniture Schedules	96
Furniture Manufacturer's Shop Drawings	96
Building Ornamentation Plan	97
Shelving Plans	97
Signage Schedule	98
Security Schedule	98
Cost Estimates	98
Change Orders	99
Punch List	100
Summary	100
Chapter 7. About Floors and Urban Library Doors	101
A Blueprint for Floors	101
Modular Design	101
Building Codes and Standards	102
Building Occupancies	105
Occupant Load	106
Vertical Movement	107
Ornamental Stairways	108
Elevators	109
Staff Work Spaces	109

Staff Elevator	110
Book Elevators	110
Core Service Areas	112
Schematics-Alternate Floor Designs	112
Floor Loads	113
Urban High Rise Libraries	113
A Conversation with Patricia Scott	115
Summary	118
Chapter 8. Heating, Ventilation and Air-Conditioning (HVAC) Leadership in Energy and Environmental Design (LEED)	121
How HVAC Systems Operate	122
Heating	122
Warm Air	122
Steam and Radiant Heat	123
Factors Which Affect Heating Systems	124
Cooling	124
Humidity	126
HVAC Control Devices	126
Humidity Control	128
Conservation and Economy	129
Balancing the System	129
Leadership in Energy and Environmental Design – LEED	130
A Conversation with Patricia Andrasik	131
Summary	135
Chapter 9. Electrical Power	137
Preliminaries	137
Electrical Engineer’s Responsibilities	138
Meeting Power Requirements	138
Technical Services	140
Perimeter Installation	141
Floor Boxes and Tombstones	142
Floor Grid System	142
Library Reading Areas	142
Uninterrupted Power Supply	143
Special Issues	143
Electrical Closets	144
Summary	144
Chapter 10. Physically Challenged Patrons	147
Basic ADA Accommodations	148
Means of Entry and Egress	148

Aisles and Walkways	149
Communication	150
Furniture Design	151
Study Tables	151
Library Carrels	153
Special Equipment	153
Other Accommodations	154
Restrooms	154
Safety Issues	155
Alarms	155
Summary	156
Chapter 11. Acoustics	159
Designing Quiet Spaces	159
Containment and Muffling	160
Grouping Lounge Furniture	160
Dividing Large Spaces	161
Anticipating Noisy Equipment	161
Laptop Zones	161
Photocopier/Printer/Scanner Rooms	162
Stand-Alone Printing	163
Monumental Spaces	163
Problems External to the Library	166
Summary	167
Chapter 12. Shelving	169
Shelving Options	169
Case Shelving	169
Warehouse-Type Shelving	171
Cantilever Shelving	171
Shelving Height and Depth	173
Color	174
Shelving Features	174
Installation	176
Modular Design	177
Simple Rules for Layout	178
Lighting	178
Compact Shelving	179
Space, Collection Size and Cost	180
Floor Loads	182
Compact Shelving: Sum of the Parts	184
Safety Features	185

Layout Design	186
Contracting: Shelving, Lighting, etc.	187
Where to Install Mobile Shelving	187
Summary	188
Chapter 13. Lighting	189
Lighting Levels	190
Lighting Source	191
Natural Lighting	191
Skylights	192
Artificial Lighting	194
Lighting Specific Library Areas	194
Bookstacks	194
Compact Shelving	195
Reading Areas	196
Task Lighting	198
Becoming Familiar with the Lighting Plan	198
Summary	200
Chapter 14. Staff Work Spaces	203
Administrative Suite	204
Director's Office	204
Secretary or Administrative Assistant	205
Conference Room and Lounge	205
Reference Department	206
Reference Staff Office Space	207
Centralized Reference Desk Options: Open or Enclosed?	208
Reference Office Furnishings	209
Circulation Department	210
Circulation Librarian	210
Interlibrary Loan Librarian	211
Circulation Counter	212
Reserve Collection: Open or Enclosed?	214
Open Reserve	215
Securing Reserve Materials and Circulation Equipment	216
Securing Media Equipment	216
Technical Services Department	216
Technical Services Offices	217
Open Work Areas	218
Mail and Deliveries	219
Materials-in-Process Shelving	219
Summary	220

Chapter 15. Special Collections	223
Introduction to Special Collections	223
A Memorable Conversation with the Late Laura Bedard	224
Summary	233
Chapter 16. Displays and Exhibits	235
A Conversation with Frances Brillantine	236
Display Space Requirements	240
Display Case Furniture	241
Exhibit Locations	242
Lighting the Exhibit	244
Environmental Considerations	244
Security	245
Summary	246
Chapter 17. Furniture	247
Quick Furniture Tutorial	247
Furniture Program	247
Interior Design Consultant	248
Wood Products	249
Furniture Maintenance	250
Factory Visit	252
Thos. Moser Factory Tour	252
Reading Room Furniture	253
Tables	253
Table Size	253
Table Strength and Durability	254
Table Surface	256
Table Wire Management and Task Lighting	256
Carrels	257
Carrel Furniture Dimensions	258
Carrel Technology	259
Carrel Task Lighting	260
Reader Chairs	261
Task Furniture	263
Dictionaries, Atlases, and Encyclopedias	264
OPAC Furniture	265
Lounge Furniture	265
Book Trucks	266
Workstations	267
Task Chairs	268
Occasional Chairs	269

File Cabinets	270
Wall Systems	270
Summary	270
Chapter 18. Microforms	273
Reading Room and Collection Requirements	274
Effect of Digitization Projects	275
Microform Reading Room Location	276
Lighting and Environmental Issues	278
Microform Storage	279
Floor Loading	280
Shelving	281
Reader Accommodations	282
Reading and Printing Equipment	282
Signage	283
Summary	284
Chapter 19. Computers	285
The Commons and Learning Commons	286
Design Tips	287
Design in Flexibility	288
Making Plans	289
Conduit and Cable	290
Types of Cable	291
Wireless Connectivity	293
A Conversation with Billie Jo Kaufman	294
Special Computer Installations	298
Technical Services	298
Training Labs	299
Study Rooms and Technology	302
The Systems Librarian in Times of Tight Budgets	302
A Conversation with Len Davidson	303
Housing the Systems Librarian	305
Summary	305
Chapter 20. Security	307
Book-Detection Systems	307
Electromagnetic Systems	307
Radio Frequency Systems	308
Acousto-Magnetic Systems	309
RFID Systems	310
Gates and Turnstiles	310
Planning for Book-Detection Systems	311

Other Security	311
Circulation Counter Design	311
Cameras and Electronic Keycards	312
Door Guards	314
Equipment That Walks	315
Telephones and Panic Buttons	315
Fire Safety	316
Wall Safes	317
Summary	318
Chapter 21. Signage.....	319
World of Library Signs	319
Naming Signs	320
Directional Signs	321
Library Maps	322
Department Signs	323
Inscriptions	324
Video Information Systems	324
Web Accessible Systems	326
Graphics and Braille Signs	326
Summary	327
Chapter 22. Patron Amenities	329
What Students Want Most	329
Furniture	329
Non-Quiet Areas	330
Study Rooms	332
Faculty Study Room Dimensions	332
Coffee Bars and Cafés	334
A Conversation with George Pike	335
Restrooms, Telephones, and Lounges	339
Restrooms	339
Telephones	340
Patron Cell Phone Use	341
Drinking Fountains	341
Soft Seating	341
Business Equipment	342
Paging Systems	343
Summary	344
Chapter 23. Photocopier/Printer/Scanner Services.....	345
Intelligent Planning	345
Old Equipment or New?	346

Multiple Photocopier/Printer/Scanners Rooms	347
Electrical Power	348
Liberal Use of Window Glass	349
Staff Requirements	349
Summary	350
Chapter 24. Staff Amenities	351
Library Lounge: Refuge and Relaxation	351
Place to Meet	352
Staff Conference Room	354
Furnishings as Amenities	354
Closets and Other Conveniences	356
Clean Up, Elevator, Restrooms, etc.	357
Summary	358
Chapter 25. Deliveries and Storage	359
Loading Dock	359
Loading Dock Designs	360
Loading Dock Operation	361
Removal of Building Refuse	362
Passageways and Freight Elevator	362
Library Storage Requirements	362
Library Collections Storage	363
Reshelving Areas	364
Office and Library Supplies	365
Computer and Photocopier/printer/scanner Supplies	366
Media Supplies and Equipment	366
Archival and Special Collection Storage	366
Summary	366
Chapter 26. Plan for Expansion—Making a Major Renovation:	369
Collection Development	370
Technology	371
Expansion Options	372
Dense Space: compact shelving	372
Flexible Space	372
Raw Space	373
A Conversation with Margaret A. Leary	374
Other Raw Space Design Issues	377
Document Your Expansion Plans	378
Horse Trading	380
A Major Renovation and Addition—The Wolf Law Library, College of William & Mary	380

A Conversation with James S. Heller	381
Summary	388
Chapter 27. Naming Opportunities	389
Gifting	389
Donor Opportunities	389
Library Naming Gift	390
Other Large Gifts	391
Something for Everybody	392
Capital Campaign Publicity	392
Library Renderings	393
Campaign Mailings	393
Summary	394
Chapter 28. Transition, Occupancy, and Punch Lists	397
Transition Team	398
Time to Move	398
Planning Moving the Collection on Paper	399
Shelf-to-Shelf Plan	399
Furniture and Equipment	400
Movers and Moving	401
Moving Methodology	401
Library Staff Involvement	402
Management Company	403
Security and Insurance	403
Security during Transition	404
Building Maintenance	404
Punch List	405
Review Each Space	405
Punch List Patience	406
Summary	407
Chapter 29. Building Milestones	409
Ceremonial Events	409
Groundbreaking	409
Cornerstone Laying	410
Building Dedication	410
Formulating Plans	411
Media Plan	411
Preparing for Dedication	411
Dedication Ceremonies	412
Tour Guidelines	412
Awards	413
Summary	413

Appendix I. Designing Library Spaces that Encourage Learning:
 Survey Questionnaire415

Appendix II. Annotated Bibliography.419

Appendix IIIA. Needs Assessment.471

Appendix IIIB. Needs Assessment & Program Statement Document.477

Appendix IV. Special Collections in Academic Law Libraries.491

**Appendix V. Sample List of Naming Opportunities from a Midsize
 Law School Library501**

**Appendix VI. Chronology of a Law School Design and Construction
 Project.503**

**Appendix VII. American Bar Association Section on Legal Education and
 Admissions to the Bar507**

Index511
