The experts at William S. Hein & Co., Inc. are pleased to bring you Digital Services for Libraries!

- Are you planning to digitize your unique collections into an image-based, fully searchable format, but not sure how or where to begin?

- From the smallest rare book or microfiche collection to the largest unique collection at your library—we’re here to help.

- Our experts have converted more than 100,000,000 images! More than 100 years of combined experience awaits your staff!
As a HeinOnline subscriber, you’ve watched HeinOnline grow from a concept into reality.

From just 25 legal periodicals in 2000, HeinOnline now contracts with more than 1,700 journals and includes core U.S. Government documents such as the U.S. Federal Register, U.S. Treaties, U.S. Reports, Congressional Record, Code of Federal Regulations and more. In addition, our Legal Classics and World Trials Libraries stand second to none in document quality.

Now, as libraries begin to evaluate ways to bring their unique historical collections to their university population, or the world, the Hein Company is here to help and share our expertise.

**Document Preservation Services Now Available**

*From the Creators of HeinOnline...*

**Consulting Services**
Pick up the phone and give us a call at 800.828.7571 or let us come visit you! We’ll bring our knowledge and expertise to your library to help you understand the advantages of bringing your own historical documents to the desktops of your patrons and the world.

**Production Services**
Beyond consulting, we would be happy to scan and index your documents, using our state-of-the-art equipment and technology at the forefront of today’s best scanning technology.

We have more than 40 years of experience in document conversion. We’ve been scanning since the early 1990s and we understand how to scan based on document type. With various types of scanners, we can recommend the most cost-effective way to scan. Photos, grayscale, color - we do it all!

**Bound Book Scanning** - Worried about your rare and fragile books? We understand your concern and we’ve acquired special bound book scanners to handle delicate books and documents. With the specialized scanners, books need to be open only 110° and do not need to be unbound! We return your books to you in the same condition as we receive them!

**Microfilm/Microfiche Conversion** - Our film/fiche scanners use superior camera technology that produce incredible speed, precision and uniform output. Scanned images are sharper with better edge definition because These scanners use fiber-optics as its light source, eliminating hot spots and uneven lighting.
Hosting Services
Your digital files can be prepared for your own hosting service, or we can arrange to host them for you.

If you choose our hosting service, you’ll have access to the HeinOnline software and interface that you’re already accustomed to using. We can add your new library to your sign-in page in HeinOnline.

Access/Control Services
Want only a limited number of people to access your unique collection? If you use HeinOnline as your host, we can control who is/is not able to access your digital collection.

Preservation Services
With more than 30 years in the microfilm publishing business, we can reproduce your collections into long-life microform (fiche or roll film), as well as store a duplicate electronic copy in our climate-controlled vault.

• **Oversized Document Scanning** - Merging the flexibility of flatbed scanners with the best of wide format imaging technology, our oversized document scanner is the ideal scanner for capturing books, fragile originals, and other thick or delicate materials up to 18” x 24”. And unlimited scanning thickness means that our flatbed scanner can handle all your scanning needs.

---

**Why digitize your library’s unique collection?**

- To increase and broaden access
- To improve control over collections
- To provide an alternative for fragile materials
- To open a window into the past
- To provide an innovative environment for users
Why choose Hein?

We’re the experts when it comes to the preservation and digitization of legal materials. Since the 1960s, we’ve been preserving rare document collections from all over the world. From reprinting, to microfiche, to HeinOnline, we’ve successfully delivered high-quality documents to the legal research community for more than 40 years. More than 100 years of combined experience awaits you and your staff!

Act Today!

As the process of digitizing historical works is a very delicate and extensive process, we are limited in the number of projects we can accept each year.
