Image Is Everything!

All Image-Based PDF Format

HeinOnline provides exact page images of documents in PDF format just as they appeared in the original print material. This means that all charts, graphs, tables, pictures, handwritten notes, photographs, and footnotes appear where they belong. All documents and metadata are also fully searchable!

Easy-to-Use Interface

Main Search Bar

The main search bar is stationary and available from all pages within HeinOnline. Use it to search across the full text and metadata of all subscribed content, quickly retrieve documents using citations, search the entire HeinOnline catalog of publications, or access case law both within HeinOnline and via Fastcase.

The image shows a screenshot of the HeinOnline search interface. At the top, there are four tabs: "Full Text" (highlighted in green), "Citation", "Catalog", and "Case Law". Below the tabs is a search input field with the placeholder text "Search All Collections...". To the right of the input field is a magnifying glass icon. Below the input field, there are three links: "Advanced Search" with a dropdown arrow, "Search Help" with a dropdown arrow, and "Search History".

Extensive Search Options

Use the advanced search to find terms, article or section titles, authors, and other data across documents. Narrow your search using the "Search Within Results" or quickly run the same search in another library with the click of a mouse. Instantly download a PDF or email a direct PDF link to a colleague or classmate.

Case Law

HeinOnline has partnered with Fastcase, a leading next-generation legal research service that features powerful "best-case-first" tools that makes research faster than ever. This partnership offers HeinOnline subscribers access to a wide array of case law at the federal and state levels and enables HeinOnline users to access the full text of cases through their HeinOnline subscription without the hassle of having to use multiple research databases.

There are two levels of access to Fastcase via HeinOnline: Fastcase Basic, which is included at no additional cost with all core HeinOnline subscriptions, and Fastcase Premium, which offers additional features such as the ability to search the full text of all Fastcase case law.

Customized Research Tools for Specialized Content

Some HeinOnline libraries have custom research tools to make it even faster and easier to locate documents:

- The U.S. Congressional Documents library has a Daily-to-Bound Locator Tool, allowing you to quickly find a page in the Bound volume from the Daily edition.
- The Law Journal library allows you to search by subject, country, or U.S. state.
- Use a Title/Part/Section quick locator tool to quickly access a section in the CFR.
- Use a Treaty metadata search in the U.S. Treaties and Agreements library to search across specific treaty data.
- Use the Sources of Compiled Legislative History Database in the U.S. Federal Legislative History library to locate all available compiled legislative histories and related documents on a public law.
