Modern usage of the term intellectual property, which refers to a number of types of creations of the mind for which property rights are recognized, goes back at least as far as 1888 with the founding in Bern of the Swiss Federal Office for Intellectual Property. It wasn’t until the establishment of the World Intellectual Property Organization in 1967 that the term really began to be used in the United States, and it didn’t enter popular usage until the passage of the Bayh-Dole Act of 1980.

Under intellectual property law, owners are guaranteed certain exclusive rights to a variety of intangible assets, such as musical, literary, and artistic works; inventions and discoveries; and phrases, words, symbols, and designs. Common types of intellectual property includes copyrights, trademarks, patents, industrial design rights, and trade secrets in some jurisdictions.

Features:

Flexible Browse and Search Options
In HeinOnline’s Intellectual Property Law Collection, you can search across just books, just legislative histories, just federal agency decisions, or you can search across everything. With flexible search options, researchers are able to search across all intellectual property materials in one database! When browsing “All Titles” from within the collection, you can browse legislative histories by the public law number or the popular name of the bill in question.

Use facets to refine your results set by document type, date, title, or section type. This means, for example, you could run a search across everything “intellectual property law” and then narrow your results to only legislative histories published between 2000-2005. With faceted searching, you manipulate the results set to see what you want to see.

Quickly View the Metadata of a Public Law Number
Link directly to Nancy Johnson’s Sources of Compiled Legislative History Database residing in the U.S. Federal Legislative History Library to view key metadata about a public law. From there, Hein’s ScholarCheck tool connects you to law review articles that cite the statute. Hein’s ScholarCheck advances your research by connecting various sources of legal material with the click of a mouse. This means when you’re researching in HeinOnline’s Intellectual Property Law Collection, you can also find out which law review articles discuss the legislation at hand, or if there are other legislative histories on the topic.

Browse by Public Law Number and Popular Name
When browsing legislative histories in this collection, you can browse by Public Law Number, Popular Name, or Publication title.
