

Law Librarian's Reference Library beta

Introducing HeinOnline's First Digital Reference Library!

HeinOnline is pleased to introduce the **LAW LIBRARIAN'S REFERENCE LIBRARY**; a digital library for the entire library staff. The initial content features Larry Dershem's loose-leaf **Library of Congress Classification Cumulative Schedules and Indexes**, all of the **Library of Congress Classification Schedules**, and the **Library of Congress Subject Headings**. This new library will prove to be the next generation of digital reference libraries!

In addition to the enhanced Dershem and comprehensive LC classification schedules and Library of Congress Subject Headings, this library will contain a variety of other reference books related to managing your library, including such titles as **Cataloging Services Bulletin**, **Cataloging Made Easy: A Concise Edition of Library of Congress Classification and Subject Headings**, **Subject Headings Manual**, and much more!

The initial content of this digital reference library will serve as a remarkable cataloging aid by linking catalogers from the Library of Congress Subject Heading to the classification schedules, and from the classification schedules to the tables, all in a matter of seconds! With the ability to browse or search across the Library of Congress Subject Headings and the LC classification schedules, cataloging could never be easier.

This library is currently in **beta** mode, which means that we are continuing to develop its functionality and usability. The goal is to create an online library that is valuable for library management. As changes are made to the library, we will seek feedback and suggestions by inviting users to participate in a series of surveys about the library. This feedback will fuel the development and enhancements applied to the library over the course of the next twelve months.

A library for librarians.

If you maintain your print subscription to the Dershem classification schedules, you can obtain free access to this digital beta library!
