*A law librarian's right-hand resource for selecting new titles!*

Specializing in law and law-related publications, Hein's [Electronic GreenSlips](#) is the next generation of the traditional *GreenSlips* that were sent for decades via postal mail to law libraries throughout North America. The *GreenSlips* product is maintained by a law librarian to provide subscribers with professionally selected information about newly published law and law-related titles from hundreds of publishers. *Electronic GreenSlips* reduce the time and cost of book selection and collection development time by providing bibliographic information on newly published monographs and serials of interest to librarians.
