Index to Foreign Legal Periodicals

Support the American Association of Law Libraries by subscribing to IFLP today!

Index to Foreign Legal Periodicals (IFLP) is a publication of the American Association of Law Libraries, compiled and edited by the IFLP staff at Berkeley Law Library at the University of California.

The *Index to Foreign Legal Periodicals* is the preeminent multilingual index to articles and book reviews appearing in **more than 800 legal journals** published worldwide. *IFLP* provides in-depth coverage of not only international law, but also U.S. law, comparative law, common law, civil law, and more. *IFLP* also analyzes the contents of approximately fifty individually published collections of legal essays, Festschriften, Mélanges, and congress reports each year.

Why use an index?

With the internet at our fingertips, we have become used to finding answers fast. However, a Google search won't always provide the most reliable information. And when you run a keyword search in a full-text database, you're likely to pull thousands of articles, of which only a couple may be relevant to your research.

Enter the index, a valuable tool for helping you quickly retrieve the resources you need. Because indexes aren't full text, they will only provide results that match your keyword search in the title, abstract, or author, which means you're much more likely to find articles relevant to your research, rather than articles that may simply mention your search term one or two times.

With fewer yet higher quality results yielded from an index, you can spend less time searching—and more time learning.

In-depth coverage of:

- Public and private international law
- U.S. law
- Comparative law
- Foreign law
- Common law
- Civil law
- And more

Work done by a wide array of people, including:

- The *IFLP* staff at Berkeley (students, web editor and general editor, Marci Hoffman)
- *IFLP* indexers from around the world
- Advisory board
- HeinOnline staff

Find more results with HeinOnline's *IFLP* by keyword searching for topics, foreign language terms and phrases, country names, and regions. *IFLP* contains a wide variety of subjects, many of interest to practitioners in addition to the scholarly audience, including administrative law, antitrust and restraint of competition, contracts, bankruptcy, and much more!

***With more than 400,000 records, linking to nearly 100,000 full-text articles,
no other database rivals the scope and coverage of IFLP.***

Translating a Japanese Labor Law Treatise

INTRODUCTION

I recently translated from Japanese to English a treatise on Japanese labor law written by Professor Kazuo Sugeno of the University of Tokyo Law Faculty. In Japanese, the treatise runs to approximately 650 pages, including end matter (i.e., prefaces, table of contents, indexes). It will print to about 750 pages in English when it is published at the end of 1991 by the University of Washington Press.

By describing how this project was achieved and what was learned from it, this article seeks to persuade other law professors, law students and lawyers — especially those who have not had prior training in the Japanese language — that they can acquire Japanese-language skills that will enable them to do primary research in Japanese legal materials. Although the acquisition of these skills requires considerable effort, the intellectual and other rewards, in my view, more than compensate for the travail involved.

The importance of Japanese society as an area of inquiry for American scholars hardly needs elaboration. Besides being second
