

National Survey of State Laws 9th Edition

Edited by Richard & Wendy Leiter

Easily Compare State Laws on Hot Topics Such as Abortion, Gun Regulation, and More!

National Survey of State Laws (NSSL) is a **print and online resource** that provides an overall view of some of the most-asked-about and controversial legal topics in the United States. This database is derived from Richard Leiter's *National Survey of State Laws* print editions. Presented in chart format, NSSL allows users to make basic state-by-state comparisons of current state laws. The database is updated regularly as new laws are passed or updated.

All editions dating back to the 5th edition, are included in database format, which allows users to compare the same laws as they existed in 2005, 2008, 2015, 2019, and 2022, and to make more current comparisons with laws added or updated in the database since the publishing of the most recent print edition.

CHAPTERS **NEW** TO THE 9TH EDITION:

- Beer Law
- Privacy of Library Records
- Unclaimed Dead Bodies
- Voter Laws

"The National Survey of State Laws has saved countless researchers and librarians significant time and effort in performing multistate research."

- Deanna Barmakian | AALL Spectrum Magazine

ABOUT THE EDITOR

Richard Leiter is the Director of the Schmid Law Library and Professor of Law at Nebraska College of Law. He got his start in law libraries in 1977 at Irell & Manella, a prominent Los Angeles law firm. After graduating from Southwestern University Law School in 1981, he moved to Texas where he worked at the University of Texas Tarlton Law Library and earned his Masters in Library and Information Science in 1985. Over time, he became the head of public services at the University of Nebraska, managed the library at Littler Mendelson Fastiff & Tichy in San Francisco, and managed academic law libraries at Regent University and Howard University before returning to Lincoln in 2000. Professor Leiter has written widely on law library, legal research, and legal information technology issues. He is an active scholar and has contributed to books, the *Law Library Journal*, and numerous other law library publications.

LEARN ABOUT THE MOST SOUGHT-AFTER AND CONTROVERSIAL LEGAL TOPICS IN THE UNITED STATES

The topics featured in NSSL fall into eight general legal categories: **Business and Consumer Laws; Criminal Laws; Education Laws; Employment Laws; Family Laws; General Civil Laws; Real Estate Laws; and Tax Laws**. Within each category, topics are arranged alphabetically and presented in their own subsections. Each section begins with a general overview followed by a table that briefly summarizes each state's statutes on particular aspects of the law. References to the statute or code section covering that law are also presented, enabling users who are interested in reading the original text to easily find it. The appendix, Statutory Compilations Used in This Book, provides the abbreviations and full names of each state code.

"The time a product like this saves is potentially huge—having to do something like this on your own would quickly prove both tedious and expensive. At typical paralegal billing rates, saving three or four hours of research time would pay for the title. It is hard to imagine a resource that provides more bang for the buck."

A MUST-HAVE GUIDE FOR STATE-BY-STATE LAW COMPARISON

"This publication continues to be most useful for law libraries serving the public as well as for lawyers and judges who need to review more than one state's laws. Especially helpful are both the criminal and civil statute of limitations. This book continues to be updated and expanded, making it an excellent addition to any law library, and even public law libraries."
