New Features & Enhancements

HEIN OF THE CENTURY.
Overview

Over the past 12 months, we’ve been hard at work to not only create new databases, but to also update our existing databases and improve upon many features in HeinOnline. Below are some of the major updates we’ll review:

- Major database enhancements
- Updates to databases tools
- New databases tools
- New and updates searching resources
Database Enhancements
This newly revised edition addresses the needs of large and small law libraries alike, particularly those who wish to follow national cataloging standards, including the Library of Congress and the Program for Cooperative Cataloging.

Cataloging Legal Literature, 5th edition (CLL5) addresses RDA instructions and terminology as found in both the current RDA Toolkit and its Beta Site.

CLL5 is not a general self-help book for the beginning cataloger. The goal is to help the law cataloger deal with the ambiguities of 21st century cataloging.

Throughout the manual, illustrations of descriptive or subject cataloging and MARC tags are offered. The examples of subject cataloging are based on guidelines published in the Library of Congress’ Subject Cataloging Manual (SCM) and identifying Library of Congress practices for assigning subject headings.
Cataloging Legal Literature, Fifth Edition

In addition to print, CLL5 is available in digital format as a searchable resource.

Part 1 includes hyperlinks to:
- Cataloging resources
- Extensive MARC examples
- Charts

Part 2 of CLL5 contains an alphabetical listing of more than 220 legal terms and publication formats. These terms will link users to:
- RDA instructions
- Subject practice
- Classification information
- Cataloging examples
