HEINONLINE’S SCHOLARCHECK

Quick Reference Guide

• Analyzes the most-cited journals, articles, and authors
• Enables users to view and access articles and cases cited by other articles and cases, and to see how many times an article has been accessed by other HeinOnline users within a rolling 12-month period
• Provides inline hyperlinking so users can quickly access related material across HeinOnline and Fastcase content
• Allows users to sort search results by most-cited and most-accessed content
• Calculates metrics for ranking scholarly authors and displays these metrics in Author Profile Pages

DATABASES WITH SCHOLARCHECK

• Law Journal Library
• Bar Journals Library
• English Reports Full Reprint
• Kluwer Law International Journals
• Taxation and Economic Reform in America Parts I & II
• U.S. Federal Legislative History Library

• League of Nations Treaty Series
• ALI-ABA titles from the American Law Institute
• U.S. Supreme Court Cases in the U.S. Reports
• Part I of the Foreign and International Law Resources Database

ANALYZE THE MOST CITED ARTICLES, AUTHORS, JOURNALS, AND MORE!

Enter the Law Journal Library and choose the Most-Cited browsing option. Select Authors, Articles, Journals, ScholarRank’s Top 50 Articles, or ScholarRank’s Top 250 Authors

HEINONLINE’S MOST POWERFUL RESEARCH TOOL YET.
QUICKLY ACCESS RELATED MATERIAL

View and access articles that are cited most by other articles and cases, and that are accessed the most over a 12-month period. Click the "cited by" links to view a list of articles or cases which cite the article being viewed.

SCHOLARCHECK AND CASE LAW

HeinOnline's ScholarCheck tool is also integrated with case law found within HeinOnline and via Fastcase. Quickly access cases or articles which cite a case being viewed.

INLINE HYPERLINKS

Click inline hyperlinks (highlighted in blue) from the text of a document to quickly jump to documents contained inside HeinOnline or pulled in from Fastcase.
SORT SEARCH RESULTS USING SCHOLARCHECK METRICS

Users can tailor search results to meet their individual needs by sorting them by number of times cited by other articles, number of times cited by cases, most-cited authors, or number of times accessed by other HeinOnline users in a rolling 12-month period. This enables users to find the most relevant, on-point articles and cases for their research purposes, or see what’s trending in the academic research world by choosing the articles that have been accessed the most. Look for the *Sort by* bar located directly above search results to review available sorting options.

SCHOLARCHECK AND AUTHOR PROFILES

ScholarCheck is an integral part of author profile pages in HeinOnline. Metrics counted for each author include:

- Number of times cited by articles (total)
- Number of times cited by cases
- Number of times accessed
- Number of times cited by articles in the past 10 years
- Number of times cited by articles within the past 1-2 years

These metrics are counted but do not contribute to the author’s overall rank:

- Average number of citations per article
- Number of self-citations

In addition to ScholarCheck metrics, Author Profile Pages display an author’s overall HeinOnline ranking (“ScholarRank”). They also enable users to set up various email alerts and view a list of articles written by a particular author. When authors have enhanced their profiles, biographical information and links to social media and other websites are also available.

SCHOLARRANK TOP 50 ARTICLES

ScholarRank enhances ScholarCheck by ranking the 50 articles cited the most by articles in the Law Journal Library, by cases available through HeinOnline and Fastcase, and accessed the most times by other HeinOnline users! Using the three ScholarCheck quantifying categories, an analysis is run called ScholarRank, in which all articles in HeinOnline are gathered and ranked in each category. Then the rankings are averaged to produce a list of the 50 highest-scoring articles. This list is available in the Law Journal Library under the Most-Cited browse option.
