

State Reports: A Historical Archive

More than 11 million pages of historical state reports & growing!

HeinOnline's database, State Reports: A Historical Archive, provides a digital version of Hein's State Reports Checklist along with linking to the full text of historical state reports. Hein's State Report Checklist provides researchers with a convenient state-by-state bibliographic guide to published court reports and how they interrelate with the National Reporter System. Information has been collected from William S. Hein & Co., Inc.'s extensive records gathered over many years and sent to the State Law Library and/or a major university law library within each state for verification and expansion. The revised information was then checked against several other reference sources resulting in the most detailed and updated state report checklist currently available.
