### Court Grants Injunction for Nintendo Against Gaming Pirate

By Ellen M. Zavlan, Esquire, with  
Lauryn Robinson, GW Law, 2L

It is too good to be true, then it probably is... illegal. This is exactly what gaming company Team-Executor, Sergio Moreno, found out the hard way. In 2018, his company, *Offen-Up*, enabled hundreds of users to play their favorite Nintendo games for free or at a reduced cost.

In March of 2017, Nintendo of America ("Nintendo") released the *Nintendo Switch*, a multifunctional video game system designed to be used at home or on-the-go. Users can purchase games online or insert

So it is no wonder why gamers flocked to *Offen-Up* for a free version of the Nintendo games. Since the pirated games attracted hundreds of users, it was on Nintendo's radar screen. In response, Nintendo filed suit against Moreno for copyright and trademark infringement on Dec. 11, 2018 in the United States District Court, Central District of California, Southern Division.

Nintendo claims Moreno committed various counts of copyright and trademark infringement. By alleging that "defendants' modifications are (a) designed or produced for the primary purpose of circum-

### About the U.S. Presidential Impeachment Library

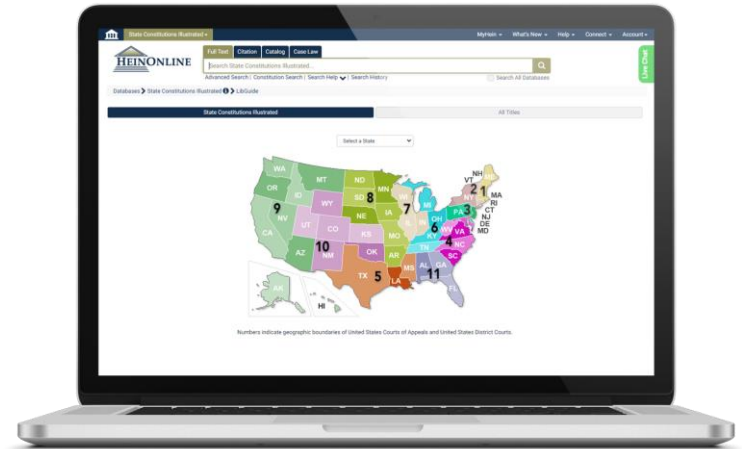

*"The President, Vice President, and all civil Officers of the United States, shall be removed from Office on Impeachment for, and Conviction of, Treason, Bribery, and other high Crimes and Misdemeanors."* — **U.S. Constitution, Article II, Section 4**

Impeachment proceedings in the United States are rare. Presidential impeachments are even rarer. Since 1789, the House of Representatives has initiated impeachment proceedings only 62 times, and just 19 of these have led to full impeachments. Eight federal judges have been convicted and removed from office by the Senate, but thus far no president has met the same ignominious fate.

**CHILD LABOR LAWS** protection and constraint is not sharp. **CHILD labor laws** under-ably protect minors in some instances from the harmful effects of some work. Yet these same **laws** act to deny young people many beneficial work experiences. III. DESCRIPTION AND EVALUATION OF **CHILD LABOR LAWS** Every state has a **child labor law**.<sup>55</sup> The **laws** follow a common pattern, for many of them were modeled after the Uniform **Child Labor Law**, first recommended by the National Conference of Commissioners on Uniform State **Laws** in 1911.<sup>56</sup> This pattern has also been shaped by the federal Fair **Labor Laws** of 1938, which regulates occupations deemed to be hazardous to children.<sup>57</sup> Reform efforts have led to revision of the **child labor** statutes in several states. The 1974 Minnesota legislature enacted the **Child Labor Standards Act**<sup>58</sup> to aid the economic, social, and educational development of young people through employment.<sup>59</sup> The Utah legislature reformulated the **child labor laws** of that state and wrote an exceptionally positive statute in an attempt to encourage "the growth and development of young people through providing work opportunities while at the same time adopting reasonable safeguards to protect them from certain working hazards."<sup>60</sup> The Utah law might serve as a model for states such as Massachusetts, whose **child labor laws** are so complex and restrictive as to

# New Proximity Connectors

- Search syntax options are available which aid users in searching for words within a sentence, a paragraph, or a segment. Thanks to a suggestion from a customer, we now have a total of 8 new proximity connectors were added: w/#, /#; w/s, /s; w/p, /p; w/seg, /seg.

Search Syntax	
For more information and tips please review our <a href="#">Advanced Search Syntax Guide</a>	
Note that all Boolean operators must use capital letters.	
<b>AND</b>	to search for multiple terms i.e. <code>evidence AND admissibility</code> will produce documents that contain both terms.
<b>OR</b>	to search for either one of a pair of similar terms i.e. <code>brief OR evidence</code> will produce documents that contain either of these terms
<b>NOT</b>	to exclude a term from a search i.e. <code>evidence NOT briefs</code> will exclude every search result containing the word "briefs"
<b>" "</b>	use quotes to search for a phrase i.e. <code>"love canal"</code> will search for documents containing the exact phrase "love canal"
<b>( )</b>	to search grouped clauses to form sub queries i.e. <code>(watershed OR "water rights") AND planning</code> will produce documents that contain either watershed or water rights and planning
<b>~</b>	to search for words within a particular proximity of each other i.e. <code>"watershed planning"~10</code> will search for watershed within 10 words of planning
<b>?</b>	to search for words where there may be variations of the word that you want included in your search i.e. <code>te?t</code> will produce documents that contain text or test
<b>*</b>	to search for a word with multiple character differences i.e. <code>brief*</code> will return searches with the words brief, briefs, and briefed
<b>w/# or /#</b>	to search for two words within a set proximity of one another, i.e. <code>jury w/5 discrimination</code> or <code>jury /5 discrimination</code>
<b>w/s or /s</b>	to search for two words within a sentence, i.e. <code>jury w/s discrimination</code> or <code>jury /s discrimination</code>
<b>w/p or /p</b>	to search for two words within a paragraph, i.e. <code>jury w/p discrimination</code> or <code>jury /p discrimination</code>
<b>w/seg or /seg</b>	to search for two words within a segment, i.e. <code>jury w/seg discrimination</code> or <code>jury /seg discrimination</code>

- HeinOnline publications will appear in a new tab labeled "HeinOnline Works"
- Author's ORCID record (including biography, metadata, and non-HeinOnline works) will appear in the ORCID Record tab

## Author Profile Enhancements

# ScholarRank's Top 250 Authors

- ScholarRank is an overall ranking based on the calculation of five HeinOnline ScholarCheck metrics
- The Z-score for each of the five metrics is taken and then averaged; the final average is entered into standard competition ranking
- The raw data is updated monthly and now displays authors' affiliated institutions

### ScholarRank's Top 250 Authors in HeinOnline

ScholarRank is an overall ranking based on the calculation of five HeinOnline ScholarCheck metrics. The Z-score for each of the five metrics is taken and then averaged; the final average is entered into standard competition ranking to produce the overall ScholarRank for each author. The raw data and final ranking are updated on a monthly basis and can be found on the HeinOnline author's profile page. To learn more about how ScholarRank scores are determined, please refer to our [Knowledge Base](#).
