

# Be a Pathfinder for Hein's Legal Research Guides

## About Hein's Legal Research Guide Series

For years, William S. Hein & Co., Inc. has published a series of Legal Research Guides. The pathfinders we include in the series are guides written by law librarians in response to their users' needs or top papers from Advanced Legal Research classes. These guides are usually short (often 40 to 125 pages) and provide an annotated starting point for someone interested in finding more information on a particular topic in legal research. Below is a sample table of contents to illustrate possible structures:
